MESSAGE

I am happy to know that National Monuments Authority is organizing a National Seminar on the Founder of Delhi-King Anangpal Tomar II on 25th February, 2021.

Since its inception, NMA has emerged as an institution of national pride, working for the protection and preservation of monuments and sites of historical importance.

Delhi has an enriching historical legacy since its inception as Indraprastha till Dhillika, later founded by the Tomar Kings. It is a significant move to have scholars from different academic hues like history and archaeology to sit together and contemplate on the various aspects of our glorious past. I hope this seminar will bring all stakeholders, national and international subject experts and others under a common platform for enriching the historical knowledge.

I extend my greetings and best wishes to all members of National Monuments Authority and participants and wish the seminar a grand success.

(Ram Nath Kovind)
